**EASIER TO ADJUST**

The adjustment button is installed at the head of the bed, and the height and length of the guardrail can be adjusted with one click.

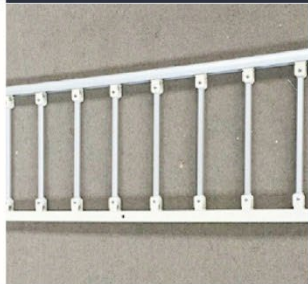

**EASIER TO INSTALL**

The new technology makes it easier to fix the bed rails on the bed without damaging the structure of the bed.

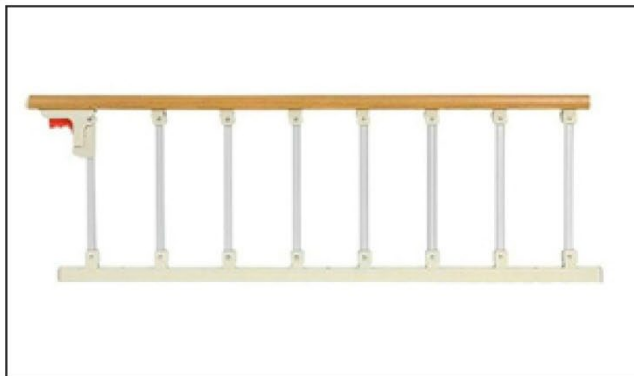

**WIDER ADAPTABILITY**

The maximum extension length of the bed guardrail is 1.99m, which is suitable for most beds.

**SAFER**

The bed rails made of aluminum alloy are stronger and more durable. It can give people a safer protection.
